

# Operating SRF in a ‘Dirty’ Machine

14<sup>th</sup> - 15<sup>th</sup> September 2017  
Helmholtz-Zentrum Berlin

The aim of the workshop is to gather together the expert community to compile experience with “operating SRF in a dirty machine” and develop recipes for the reliable operation of high-voltage SRF. Contributions are invited for all related topics, including dealing with synchrotron radiation, cleanliness and vacuum requirements, long term degradation and mitigation and many more.

Online registration and abstract  
submission will be available  
**June 2017**
